ROADSTER

EXIGE 350 SPORT

'Adding power makes you faster on the straights.
Subtracting weight makes you faster everywhere'
Colin Chapman, Lotus founder

The Roadster derivative of the iconic Lotus Exige Sport 350 is lighter and faster than ever before, thanks to a 10kg weight drop, compared to its coupé sibling.

You can make the most of performance through lightweight by selecting the lightweight options available, including a lithium-ion battery, lightweight forged alloy wheels, cross drilled and vented two-piece brake discs.

As the lightest ever V6 powered Exige, the 345 hp Roadster boasts a 0-60 mph time of 3.7 seconds, and a top speed of 145 mph.

A superior car for both track and road. The Lotus Exige Sport 350 Roadster delivers even more focussed performance, staying true to Lotus pure, lightweight traditions.
